## Huntsville Mini Dental Update

Saturday, September 19, 2015

### Preventive Update

8:00am to 10:00am (2 CE Hours)

Do you have patients ask you about fluoride? Is it safe? What proof do we have that it is safe and effective? What are the real dangers of fluoride and how do you prevent them? This course will give an update about fluoride and how to explain the benefits of fluoride to your patients. We will discuss different methods of application of fluoride and when to suggest high fluoride toothpaste, fluoride gel and varnish. We will also discuss new products for caries prevention, such as MI paste, ACP, and xylitol gum. Finally, we will discuss methods of treating patients with dry mouth. This course will get you up to date on providing the best preventative treatment for your patients while also having fun in the process!

---

### Periodontal Update

10:00am to 12:00pm (2 CE Hours)

Join Dr. Ramzi to discuss the management of patients with periodontal or peri-implant diseases in your practice, with a focus on the role of the hygienist. Learn to assess the patient's periodontal health status and recognize health from disease. Dr. Ramzi will discuss: Is the patient's overall and oral health connected? How do we examine the peri-implant tissues and treat peri-implant diseases? Which periodontal patients can benefit from local drug delivery? and The proper periodontal maintenance for our patients.

**Dr. Nathaniel Lawson** is an assistant professor at the UAB School of Dentistry in the Division of Biomaterials.

**Dr. Ramzi Abou-Arraj** is an assistant professor at the UAB School of Dentistry in the Department of Periodontology.
