

Model-Less vs. Printed Model Crown Options

	Restoration Type	Bite Scan	Posterior/Anterior	Number of Units
Model-Less Cases Accepted	Monolithic crowns (Element-Z, or Ultra-Z)	Accurate bite scan required	Posterior preferred, anterior accepted but not preferred	Up to 2 consecutive single units, 3 unit bridges
Printed Models Recommended	CAD/CAM Oral Temps		Anterior restorations, enhanced esthetics achieved with model	
Printed Model Required	LiSi Press, Multi-layered restorations, veneers, onlays, PFM, zirconia lingual, Forte, gold crowns, and SELECT	If drastic changes are required to the bite, we will need to print models and hand articulate		3 or more consecutive single units, 4 unit bridge or larger
